AZALEAS BORDERING A WELL-KEPT LAWN PRESENT A RICHLY SATISFYING MASS OF COLOR. THESE VALUABLE SHRUBS deserve a prominent place in home plantings, for in both bloom and foliage they are strikingly beautiful

THOMASVILLE NURSERIES "Home of Roses" thomasville, georgia

## Faremard

THIS CATALOGUE aims to supply our customers not only with a list of the planting material available here, but with a knowledge of what they can expect of us. As another tree and shrub planting season approaches, we first wish to thank those whose liberal patronage of last season made it one of our best years. We solicit a continuance of that patronage, with the assurance that we, as operators and employes, will make every effort to please.

We are fortunate in having started in pre-war days a large stock of some items requiring from three to five years to grow into desirable specimens. In this stock are many fine Azaleas, Camellias, Hollies, and other broad-leaved evergreens. And while we have had to curtail production of many items, we have kept up the production of both small and medium sizes.

But, generally, there is a great scarcity of quick crops, particularly of Roses and certain flowering trees and shrubs grown in the fields-items which the plantsman always has when there is plenty of labor at moderate wages, but which shrink when labor is scarce and high. We still have these plants but we simply do not have the usual supply, and as the season advances many will disappear from the market. It is of the greatest importance that purchases be made early this season.

During the emergency many of our customers necessarily do not have the gasoline and tires to make trips to the nursery. To those who must order by mail we wish to give the personal assurance that the closest attention will be given to digging, packing, and shipping all orders. Last season we were pleased to note that most cars at the nursery were filled, indicating that those who had business in this locality brought many with them who otherwise could not have come.

Last year there were some busy days when our limited organization could not wait on all who came. It may happen again at the height of the coming season, and we suggest writing or telephoning for appointments, especially if you must come a long distance.

The same officers and employes who diligently labored last season are again pledged to give you faithful and courteous service. We have every reason to believe we can take good care of your orders.

## THOMASVILLE NURSERIES <br> Thomasville, Georgia.

## By Sam. C. Hjort <br> October I, 1944.

## APPOINTMENTS INVITED

If you are coming to the nursery to make selections of plants, we suggest that you write or telephone for an appointment, to be sure of being served without delay.

There were times last season, especially on Sunday afternoons and the days at the height of the planting season, when some came and went away disappointed. An appointment makes sure you will be served.

## TERMS OF BUSINESS

Location. Main Nursery office, lath-houses, and Trial-Grounds at intersection of Boston and Summerhill roads with Boulevard, 2 miles east of Thomasville. Roses and Evergreen Nursery on Boston Road, 3 miles east of Thomasville. The Thomasville-Boston Road is a link of the Lone Star Trail from Los Angeles to St. Augustine, and is also known as Georgia State Road No. 38.

Terms. Cash with order or satisfactory references, except to parties of known responsibility.

Transportation at Purchaser's Risk. AII transportation expenses except on Roses and Liriope, are to be paid by the purchaser; our responsibility ceases upon delivery, in good order, to forwarding companies.

Substitution. We do not substitute unless so authorized. It is well, however, as the season advances, to name substitute to be used in the event of shortage.

Inspection. Our Nurseries were inspected by a representative of C. H. Alden, state Entomologist, Atlanta, Ga., August, 1944, and a certificate to this effect, and that plants are fumigated as required by law, accompanies every shipment. We comply with the various laws of the states into which we ship.

Claims. If, by any possibility, errors should occur, they will be promptly rectified, if claim is made within 10 days after receipt of the goods.

Guarantee. We cannot control conditions after plants leave our hands, and we cannot, therefore, guarantee our plants to Iive. We do guarantee all stock sent out to be well rooted, true to name, properly packed and shipped according to instructions.

Quantity Rates. Forty or more plants at the 100 rate; 300 or more at the 1000 rate.

Prices in this catalogue cancel all previous quotations and are subject to change without notice.

Order Early. We cannot too strongly urge the advisability of ordering early. In so doing one gets the pick of the stock and avoids disappointment of possible failure to get order filled complete. Orders may be sent early and stock reserved for later delivery.

Address all communications and make remittances payable to Thomasville Nurseries, Thomasville, Ga.

# For Distinctive Lawer South Gardens 

Azaleas and Camellias add grace, beauty and charm to gardens of the Lower South.
"Design in the garden is rightly regarded as of primary importance, and the kinds of plant material used in securing a desired effect are a secondary consideration. But if, in addition to pleasing design, the planting can be carried out with beautiful and out-of-the-ordinary plants, then gardens of unusual beauty result. To such plant groups belong the azaleas and camellias, and gardens in which they are used in a large way are immediately lifted out of the commonplace. They take the places of good evergreen or deciduous shrubs, and, in addition, at certain seasons fill the garden with a glory that is unsurpassed."

Dr. H. Harold Hume, eminent horticulturist, writer, and dean of the College of Agriculture, University of Florida, wrote the above as an introduction to his valuable little book, "Azaleas and Camellias," and it well expresses what we would say to those who would have distinctive gardens in the gulf and coastal section of the Southeast.

For many years we have given particular attention to winter and early spring-flowering material, especially in Azaleas, offering a large assortment of hardy Kurume, Kaempferi and native varieties which may be grown and will succeed much farther inland than Indica Azaleas and Camellias. However, in Indica Azaleas we grow the hardier Lawsal, Dixie, Formosa, and Pride of Thomasville extensively. Our Azaleas are above the average in quality, having been spaced out properly and grown well.

## LANDSCAPE SERVICE

For many years the rendering of competent landscape service has been an important feature of our business. As the 1945 catalogue goes to press, we find we have a beautiful lot of fine trees and shrubs for landscape effects, a good landscape architect, but little labor for his department.

We hope that as the season advances, it may be possible to do a limited amount of landscape work. We invite correspondence.

## Peat Humus for Soil Building

#### Abstract

Most soils in the Southeast are Iacking in humus, and we cannot too strongly urge the use of Peat Humus (sometimes called Peat Moss) to correct the deficiency. Peat Humus builds up the texture of the soil and promotes root growth and the assimilation of fertilizers and soil elements. While it is of value in building up soils for growing any kind of trees and shrubs, it is of especial merit in the culture of Azaleas and Camellias.

We are agents for Florahome Peat Humus, and we guarantee this Peat to be absolutely free of seeds, sand, and roots. It is shipped in sacks. $\$ 1.50$ per sack, f.o.b. Thomasville, Ga. Sacks average 75 Ibs.

## Let Us Ship Plants by Freight, Express and Parcel Post

Many of you who receive this booklet will wish to add some new plants to your gardens, and will be unable to come and make selections. To those we say, "Let us ship your plants." For almost half a century a large portion of our business has been the shipping of plants ordered from our annual catalogue. Fortunately, our older men, who always do the grading and packing, remain with us, and will render efficient shipping service. Ours is one of the few nurseries in the Southeast geared by experience and equipment to serve well those who order by mail, and we pledge ourselves anew to give your orders prompt, personal and careful handling.

# HJORT'S Iine Camellias 

## GROUP A CAMELLIAS

## New and Rare Varieties

Alba Superba. Large; semi-double; pure white with showy yellow stamens. 2 -yr. grafts: 15 to 18 in , 18 to 24 in . Own root: 8 to 12 in ., 12 to 15 in , Anne Lindbergh. Large; semi-double; deep pink. Very early. 2-yr. grafts: 12 to 18 in ., 18 to 24 in . Own root: 8 to 12 in ., 12 to 15 in
Aunt Jettie. Medium size; peony-form; oriental red. Very hardy; blooms over long season, midseason to Iate. A fine Camellia from Tallahassee, Fla., and thought to be a red sport of the variegated Gov. Mouton, which it resembles in growth and foliage. Own root: All sizes.
Candida Elegantissima (Nagasaki; Princess Nagaskie; Killarney King). Large; white to blush-pink with unique waves of deeper pink markings. Bush is a slow but compact grower, and hardy; flowers are very choice. 2-yr. grafts: 15 to 18 in., 18 to 24 in. 1 -yr. grafts: 8 to 12 in ., 12 to 15 in .
Catherine Cathcart. Double; imbricated; soft pink with white spots. 2yr. grafts: 12 to 18 in . $1-\mathrm{yr}$. grafts: 12 to 15 in .
Chandleri, White. Large; peony-form. A very choice pure white seedling of the well-known Chandleri Elegans, which it closely resembles in form. 2-yr. grafts: All sizes. 1-yr. grafts: 8 to 12 in ., 12 to 15 in .
C. M. Hovey. Very large; full double; deep red with white spots and splotches. A fine sport of Mathotiana Rubra. 2-yr. grafts: 12 to 15 in. 1-yr. grafts: 12 to 15 in . Own root: $21 / 2$ to 3 ft ., 3 to 4 ft .
Col. Firey. Large; full rose-double; dark red. A late bloomer, hardy, and one of the best of Camellias. 2-yr. grafts: 12 to 18 in . 1 -yr. grafts: 12 to 18 in . Own root: 18 to 24 in ., $21 / 2$ to 3 ft ., 3 to 4 ft .
Daikagura. Very large; double peony-form; deep rose-pink. One of the earliest of all Camellias to flower. 2-yr. grafts: 12 to 15 in . 1 -yr. grafts: 12 to 15 in . Own root: 12 to 15 in .
Daikagura Variegata. Variegated form of above; a very fine Camellia. 2 -yr. grafts: 12 to 15 in . 1 -yr. grafts: 12 to 15 in . Own root: 12 to 15 in .
Debutante (Sarah C. Hastie). Best of all large pink Camellias. Every bloom is perfect-large, even peony-form, delicate light pink. See illustration, back cover. Foliage is distinct and serrated. Bush is of compact and symmetrical growth, begins blooming early, and flowers over a long season. Regardless of how many Camellias may be introduced, Debutante, like Chandleri Elegans and Pink Perfection, has come to stay. Our plants are top quality. 2 -yr, grafts: $21 / 2$ to $3 \mathrm{ft} ., 3$ to 4 ft . Own root: All sizes. Donkelaari. Large; almost single; red and white variegated, with occasional solid red flower. See illustration, page 5. One of the finest of all Camellias. Ours is the old and true-to-name Donkelaari. No good collection is complete without this variety. $2-y r$. grafts: All sizes. 1-yr. grafts: 8 to 12 in., 12 to 15 in., 15 to 18 in.
Duchess of Sutherland. Large; semi-double; pure white with an occasional pink stripe. 2 -yr. grafts: 8 to 12 in ., 12 to 15 in .
Eleanor Haygood. Medium size; full rose-double; delicate light pink. Long pointed foliage on a vigorous bush. One of the select Magnolia Gardens varieties. $2-y r$. grafts: 12 to 15 in.
Elizabeth Boardman. Exquisite form and texture combined with large size make this Magnolia Gardens Camellia most outstanding. Pure white, semi-double flowers, January through March. 2-yr. grafts: 12 to 18 in., $\$ 15.00$ each.
Ella Drayton. Large; full rose-double; dark red. For a large Camellia, this is a free bloomer; large foliage. Own root: 12 to 18 in ., 18 to 24 in , 2 to $2 \frac{1}{2} \mathrm{ft}$.

CAMELLIAS are the aristocrats of Southeastern flowering shrubs or small trees. Once established, they withstand extremes of drought and cold. Apart from the lovely blooms in a wide range of charming colors and forms, the plants are evergreen, and always choice ornamentals, whether used as specimens or with azaleas or other plants in borders or varied plantings.

The Camellias we offer this year are some of the finest we have ever grown. Many varieties are in very limited supply, due to the ever-increasing demand for the better kinds, and we urge ordering early, for delivery at once or to be reserved.

Emperor of Russia. Immense; semi-double; scarlet-red with large outer petals and smaller, recurved petals in center. The large blooms are very showy. 2 -yr. grafts: 12 to 15 in ., 15 to 18 in., 18 to 24 in .
Emperor of Russia, Variegated. Red, with white spots. 2-yr. grafts: 15 to 18 in.
Empress. Very large; almost single; deep rose-pink. One of the hardiest of all Camellias. Bush compact; heavy foliage. The huge flowers make it the favorite deep pink single variety. 2 -yr. grafts: 15 to 18 in ., 18 to 24 in . 1 -yr. grafts: 8 to $12 \mathrm{in}, 12$ to 15 in .
Empress, Variegated. A striking pink and white sport of the above. 1-yr. grafts: 12 to 15 in .
Firegold (Shah of Persia; Dr. Shepard; Te Deum). Very large; semidouble; flame-red. Very choice. 2-yr. grafts: 12 to 18 in., $\$ 15.00$.
Gigantea. All the name implies. Huge; semi-double, almost single; red and white variegated. Heavy, dark green foliage. Very hardy and showy. 2yr. grafts: All sizes. 1 -yr. grafts: All sizes.
Gigantea, Light. Our own selection, propagated from twigs on which the flowers were mostly white, with red spots and splotches. One of the most beautiful of many good Camellias on our grounds. 1-yr. grafts: 12 to 18 in., \$10.00.
Glen 40. Large; rose-double; very dark red. Slow grower, but very choice. 2 -yr. grafts: 12 to 18 in ., 18 to 24 in . 1 -yr. grafts: 12 to 15 in .
Gosho-guruma. Large; semi-double; deep red with showy yellow stamens. Upright grower. 2-yr. grafts: 18 to 24 in., 2 to $21 / 2 \mathrm{ft}$.
Grandiflora Superba. Medium size; semi-double; pure white. Free bloomer over a long season, midseason to late; strong grower. One of the hardiest white Camellias. 2-yr. grafts: All sizes. 1-yr. grafts: All sizes.
H. A. Downing. Large; semi-double, almost single; very dark red with long yellow stamens. 1-yr. grafts: 8 to 12 in ., 12 to 15 in ., 15 to 18 in .
Hexagona Rubra. The most brilliant red Camellia on our grounds. Its origin is unknown, and propagating wood came to us from Sav annah, Ga. It appears to be closel Vrelated to Aunt Jettie and Gov. Mouton, since the flower is identical, but it is brighter red. 1-yr. grafts: 12 to 18 in., $\$ 10.00$.
Il Tramonto. Largest Camellia of rose-double form. Clear, satiny pink, marbled white; sometimes solid pink flowers on same bush. Upright in growth, with long, pointed, glossy leaves. 2-yr. grafts: 15 to 18 in ., 18 to 24 in. $1-y r$. grafts: 12 to 15 in.
Il Tramonto, Solid Pink (Laurel Leaf). Solid pink sport of the above, and just as choice. 2 -yr. grafts: 12 to 15 in .
Imura. Extra large; semi-double, almost single; pure white with showy yellow stamens. A great favorite with those who prize large-flowering Camellias. 1 -yr. grafts: 12 to 18 in ., $\$ 10.00$.
Jessica. Fairly large; single; bright red with showy yellow stamens. 2-yr. grafts: 12 to 15 in. 1-yr. grafts: 12 to 15 in.
Kimberley. Red stamens instead of the usual yellow ones make this a very distinctive single Camellia. 1-yr. grafts: 12 to 15 in .
Kumasaka Variegata. Pink and white sport of the popular Kumasaka. $2-y r$. grafts: 12 to 15 in .
Lady Hume's Blush. A famous old variety, yet rare. Full rose-double; white with faintest pink tinge. A very lovely Camellia. See illustration, page 7. 2 -yr. grafts: 12 to 15 in . 1-yr. grafts: 12 to 15 in .
Lady Jane Gray. One of the most beautiful and the most perfectly formed of all Camellias. Large; double peony-form; pink and white variegated. See illustration, page 6. Ours is a superior strain of this fine sort, lighter in color than usual. A hardy variety. 2-yr. grafts: 15 to 18 in., 18 to 24 in., 2 to $21 / 2 \mathrm{ft}$.
Lady Vansittart. Medium; semi-double; rose-pink to red. Glossy green foliage; symmetrical bush. Own root: All sizes.
Lady Vansittart, Variegated. A lovely pink and white sport of the above. 1-yr. grafts: 12 to 15 in.
Magnoliaeflora. Large; single; very light pink. One of the loveliest of Camellias. $2-\mathrm{yr}$. grafts: 12 to $18 \mathrm{in} ., \$ 15.00 ; 18$ to $24 \mathrm{in} ., \$ 18.50$.
Marchioness of Salisbury. Medium size; double peony-form; very dark red, mottled white. Occasional solid red fower. 1-yr. grafts: 12 to 15 in., 18 to 24 in.
Margaret Higdon (Elizabeth Grandy). Large; loose peony-form; rosered. One of the better Magnolia Gardens varieties. 2-yr. grafts: 15 to 18 in.
Marion Mitchell. Large; semi-double; scarlet-red. A fine Magnolia Gardens Camellia. 2-yr. grafts: 12 to 18 in .
Martha Brice. A wonderful new Camellia from Quitman, Ga., named in honor of its originator. Large; semi-double; light lavender-pink, a shade not found in other varieties. The most praised new Camellia in this section. The bush is a compact and symmetrical grower, the foliage wide, large, and deeply serrated. Our grafted plants are of the finest quality. $2-y r$. grafts, very compact: 12 to 18 in., $\$ 15.00 ; 18$ to $24 \mathrm{in} . \$ 18.50$.

DONKELAARI

## CAMELLIAS for WINTER COLOR

MORE than any other group of plants, Camellias give color during the winter when there is so little in bloom. Even before w nter sets in, Camellia Sasanqua, in white and shades of pink, gives color in October and November. Then comes Alba Plena, Daikagura and a few other early varieties, followed by the main crop in January and early February, with late ones to top off the season, into Azalea time.

Let's keep our gardens of the Lower South different and distinctive by using colorful Camellias!

## New and Rare Varieties, continued

Martha Wright. A vigorous and showy Camellia which developed on the grounds of the late B. H. Wright, of Thomasville, and is named in honor of his wife. Flower of medium size, semi-double, clear pink. A profuse bloomer. Has the appearance of a better and glorified Akebono, but distinct. Own root: All sizes.
Mathotiana Rubra. The finest of all full double, dark red Camellias. Huge flowers; perfectly double most of season, shows few stamens end of season. Deep red, assuming distinct purple cast as flower ages. Very hardy, and blooms over very long season. 2-yr. grafts: AII sizes. 1-yr. grafts: All sizes. Own root: All sizes.
Mikenjaku. Very large; semi-double, showy stamens; deep pink with white spots and splotches; opens wide and flat. Quite distinct from Candida Elegantissima. 2 -yr. grafts: 15 to 18 in., 18 to 24 in .
Monjisu, Red. Medium size; semi-double; deep red. Compact bush, very showy flowers. $2-y r$, grafts: 12 to 15 in . $1-\mathrm{yr}$, grafts: 12 to 15 in .
Monjisu, Variegated. A beautiful red and white form of the above. 2-yr. grafts: 12 to 15 in . 1 -yr. grafts: 12 to 15 in .
Pink Ball. Much like Debutante, but lighter pink. A free bloomer on smallest plants. $2-\mathrm{yr}$. grafts: 12 to 18 in . $1-\mathrm{yr}$. grafts: 8 to 12 in ., 12 to 15 in.
Pink Star. Large; double peony-form; salmon-pink. See illustration, page 4. 2 -yr. grafts: 15 to 18 in. 1 -yr. grafts: 12 to 15 in,

Rev. John Bennett. Large; semi-double; salmon-pink. A very choice Camellia from Magnolia Gardens. 2-yr. grafts: 15 to 18 in., 18 to 24 in . 1-yr. grafts: 12 to 15 in . Own root: 12 to 15 in .
Rev. John G. Drayton. Medium size; loose peony-form; clear, light rosepink. Another very beautiful Camellia from Magnolia Gardens. 2-yr. grafts: 12 to 18 in . Own root: 8 to 12 in ., 12 to 15 in ., 18 to 24 in .
Single Red (Overlook No. 177). Large; single; deep red. Anthers are bright yellow, filaments pink. 2-yr. grafts: 15 to 18 in . $1-\mathrm{yr}$. grafts: 8 to 12 in., 12 to 15 in .
Snowdrift. Hardiest of white Camellias, and one of the most genuinely lovely of all varieties. Perfectly formed, regular, semi-double flowers of pure white, with beautiful golden stamens. Bush of compact growth; dark green foliage. 2 -yr. grafts: 15 to 18 in., 18 to 24 in . 1 -yr. grafts: 8 to 12 in., 12 to 15 in .
Triphosa. Largest of all single white Camellias. Pure paper-white without a tinge of other coloring; very large petals and one compact ring of stamens in center of flower. $2-\mathrm{yr}$. grafts: 15 to 18 in ., 18 to 24 in ., 2 to $2 \frac{1}{2} \mathrm{ft}$. 1 -yr. grafts: 12 to 15 in .
Valteverada. Distinctive, large, rose-double, deep pink flowers, lighter in center. Own root: 8 to 12 in ., 12 to 15 in.
Valteverada, Variegated. A beautiful pink and white sport of the above. Own root: 18 to 24 in ., 2 to $21 / 2 \mathrm{ft}$.

Vashti. A Iovely Camellia from Vashti School, Thomasville, Ga. Easily the most choice of all variegated Camellias of the standard rose-double form. Medium size; produces very freely blooms of rose-pink, splashed with white. Occasional red flowers on the same bush makes it very distinctive. Double in form most of the season; shows some stamens at end of season, See illustration, back cover. Own root: All sizes.
Vashti, Red. Propagated from twigs of above bearing. red flowers; this sport produces red flowers only. 2-yr. grafts: 18 to 24 in.
Vedrine. Large; loose peony-form; deep red. 2-yr. grafts: 15 to 18 in.
Victor Emanuel (Blood of China). One of the most striking of all Camellias; we have never seen a photograph which did it justice. Unusually large; semi-double; very dark red. Bush is a compact, shapely grower. 2-yr. grafts: 15 to 18 in., 18 to 24 in. 1 -yr. grafts: 8 to 12 in ., 12 to 15 in . White Chandleri. See Chandleri, White.
White Crane (No. 14-B). Large; double peony-form; pure white. 2-yr. grafts: 12 to 18 in., $\$ 15.00 ; 18$ to 24 in., $\$ 18.50$.

## PRICES OF GROUP A CAMELLIAS:

## AZALEA and CAMELLIA FERTILIZER

For maximum growth, bloom, and general well-being, it is necessary to feed your plants properly. Unfortunately for the Azalea and Camellia grower, most commercial fertilizers are made neutral by the use of lime-stone, and are not suitable for acid-loving plants.

To meet this need we keep in stock Reliance Azalea and Camellia Special, a commercial fertilizer which is acid, easy to apply, and has no objectionable odor. It supplies a balanced and complete food for these plants. With your purchases you will receive a little booklet giving much information on the planting and care of Azaleas and Camellias.

Prices of Reliance Azalea and Camellia Special Fertilizer. 5 lbs. 50 cts., 10 Ibs. 80 cts., 25 Ibs. $\$ 1.50$, 50 Ibs. $\$ 2.50,100 \mathrm{lbs} \$ 4.00$, f.o.b. Thomasville, Ga.

## GROUP B CAMELLIAS <br> The Best of The Standard Varieties

Akebono. Medium; semi-double; salmon-pink. Very profuse bloomer. All sizes.
Akebono, Variegated. A pink and white sport of the above. All sizes. Alba Plena. The acme of perfection in double whites. Full rose-double form; pure white, wax-like. Very early. 8 to 12 in ., $21 / \frac{1}{2}$ to 3 ft .
Apple Blossom. Small, apple-blossom-pink, single flower. Most fragrant of the few fragrant Camellias. All sizes.
Bella Romana. Very full double; peppermint-candy pink and white variegated. 8 to 12 in ., 12 to 18 in .
Candidissima (White Star). Medium size; rose-double; pure white incurved petals, giving star-like appearance. 8 to 12 in ., 12 to 18 in., 2 to $21 / 2 \mathrm{ft}$.
Chandleri Elegans. The standard of perfection in Camellias; an old variety but one here to stay. Always hardy, always satisfactory. Large; peonyform; deep pink with white splotches. Large outer petals, with many petaloids in center. All sizes.
Christine Lee. Medium size; semi-double; rose-pink. A very free bloomer. 8 to 12 in ., 12 to 15 in .
Derbiana. Carnation-form, full, deep red flower. 8 to 12 in., 12 to 18 in., 18 to 24 in.
Eleanor Franchetti. Very large; double peony-form; creamy white with few pink stripes. Very Iate bloomer. 8 to 12 in., 12 to 18 in.
General Washington. Large; double; creamy white with few pink markings. 8 to 12 in., 12 to 18 in .
Gibson Semi-Double White. The fastest-growing good white. A fine sport from Mrs. F. L. Gibson. 8 to 12 in ., 12 to 18 in , 18 to 24 in .
Governor Mouton. Medium size; blood-red color, often blotched with white. A vigorous grower, rather spreading in habit, with twiggy branches. All sizes.
Grandiflora S ıperba. Medium size; white; loose peony-form; Iarge petals and showy yellow stamens. Fast grower. 8 to 12 in ., 12 to 18 in ., 18 to 24 in.
Harlequin (Sponge). Large; double peony-form; usually light pink, but variable flowers. 8 to 12 in ., 12 to 18 in ., 18 to 24 in .
Hermes. Here is truly an outstanding Camellia, always lovely, always one of the hardiest varieties. Large; loose peony-form; light pink with white edges and pink and red splotches. All sizes.
Hermes, Pink. A beautiful clear pink sport of the variegated Hermes. Like its parent, is very hardy. All sizes.
Hibiscus. Well named. Single, light red flowers. 18 to 24 in.
Imperator. Always perfectly formed double peony-form flowers, deep pink to light red. 8 to 12 in., 12 to 18 in ., 18 to 24 in .

Kumasaka. Medium, semi-double flowers of distinctive orange-pink color in great profusion. Blooms on small plants. Late. A great favorite where known. All sizes. See illustration, page 3.
Lady Vansitti (Davis Dark Red). Carnation-form; crimson-red. Bush is compact and symmetrical in growth. Stiff, narrow, sharply pointed, dark green foliage. Not to be confused with the almost single Lady Vansittart. See illustration, page 7. Profuse bloomer; very late. One of the hardiest of all Camellias. 8 to 12 in ., 12 to 18 in., 18 to 24 in .
Marianna Gaete (Lady Marion). Rose-double; Iarge; bright pink, lighter in center. Very large, wide leaves. Bush very symmetrical. Very satisfactory. 8 to 12 in ., 12 to 18 in ., 18 to 24 in .
Monarch (Gunelli; Honneur d'Amerique). Very large, full flower of double peony-form. First row of petals imbricated, others small, compact and ruffled. Color deep pink to light red, occasionally marbled white. One of the finest Camellias in the Southeast. All sizes.
Mrs. F. L. Gibson. A very unusual single-flowered Camellia raised by Mr. F. L. Gibson at Thomasville and named in honor of his wife. Mostly pink and white variegated, but some solid red, pink and white flowers. Small, rounded, distinctive foliage. Blooms over a long season. All sizes.
Mrs. Wm. Thompson. Large, semi-double, pure white blooms of great beauty. 12 to 18 in ., to $2 \frac{1}{2}$ to 3 ft .
Nobilissima. Semi-double, approaching loose peony-form; white. 8 to 12 in., 12 to 18 in., 18 to 24 in.
Otome. Like Pink Perfection but larger flower, and occasionally some flowers are deep pink. 12 to 18 in . to $21 / 2$ to 3 ft .
Panache. Medium-sized flower of blended shell-pink and white. 18 to 24 in .
Pink Perfection. All that the name implies. Small, rose-double flowers of shell-pink color, in great profusion. Bush symmetrical in growth; starts flowering early and continues throughout most of Camellia season; very hardy. Always dependable and satisfactory. AII sizes.
Prof. C. S. Sargent. One of the really great Camellias. Large; double peony-form; high, pin-cushion center; solid crimson color. Early. Should be in every good collection. All sizes.
Rainy Sun. Medium Iarge, semi-double, rose-red flowers. Twisted, rather narrow dark green leaves. A flower of Rainy Sun won the Sweepstakes Prize at the Thomasville Camellia Show in 1939 in strong competition. 8 to 12 in., 12 to 18 in., 18 to 24 in.
Reine des Fleurs. Large, rose-double flowers of rich vermilion-red color, flaked with white. 12 to 18 in ., 18 to 24 in .
Rena Campbell (Horkan; Variabilis). Most variable of all Camellias. Medrum large; mostly semi-double, generally variegated white and shades of pink, but occasionally a solid red, pink or white flower. 8 to 12 in . to $21 / 2$ 3 ft .
Semi-Double Blush. Hardiest of light pink Camellias. Almost single; blush-white. Bush fast-growing and compact; heavy bloomer. A chaste and beautiful Camellia. 8 to 12 in . to $21 / 2$ to 3 ft .
Stardust. A seedling of Chandleri Elegans. Large; peony-form; deep pink. 12 to 18 in ., 18 to $24 \mathrm{in} ., 21 / 2$ to 3 ft .
St. Elmo. Medium size; double peony-form; deep pink. An early bloomer and a fast grower. All sizes.
Sweetiana Vera (Lewelling Variegated; Duke of Orleans). Large; semi-double; medium pink with white markings; occasional peach-pink solid-colored flower. All sizes.

## Plantsas Gifts

Camellias, Azaleas, etc., make delightful gifts to send at Christmas, on birthdays or any special occasions. Such gifts are lasting and become more beautiful as time goes along. Send us your card, or authorize us to write your name on a special one, and we will place in an envelope, attach to the plant, and ship according to your instructions. If you wish, we will forward transportation prepaid and bill you with the actual cost. Please send such orders as far in advance of shipping date as possible. The supplying of gift plants for our customers has become one of our specialties.

## AZALEAS and CAMELLIAS <br> By H. HAROLD HUME

A valuable book of practical information dealing with these beautiful, increasingly popular and distinctively Southern shrubs. Thoroughly describes varieties best suited for various uses and discusses questions of culture, such as soils, fertilization and general care. 98 pages. Cloth, $\$ 1.85$, postpaid.

## GROUP C CAMELLIAS

## The Best of the Older Varieties

Althæiflora. Medium size; semi-double; orange-pink. Large, twisted foliage. 8 to 12 in ., 12 to 18 in .
Bealei Rosea (Dixie). Medium-sized, rose-double flowers of clear rose-pink color in greatest profusion. 8 to 12 in ., 12 to 15 in .
Carnation (Christmas Glory; Rose Emry). Carnation-form; glowing bright red. In this section usually a mass of colorful bloom at Christmastime
Cliveana. Medium size; carnation-form; salmon-pink. Very Iate.
Concordia. Medium size; peony-form; white with pink stripes. Very symmetrical and shapely bush.
Countess of Orkney. Rose-double; white with fine pink stripes and occasional solid pink flowers. Very early. Profuse bloomer.
Duchesse d'Orleans. Large; loose peony-form; creamy white with faint pink flecks
Elizabeth. Medium size; rose-double; usually white, but sometimes has faint pink stripes. Fast grower; symmetrical bush. 18 to 24 in.
Gloire de Nantes (Leana Superba). Medium large; semi-double; cerisered; few yellow stamens. Heavy, dark green foliage adds to its great attractiveness. All sizes.
Imbricata. Large; rose-double; red with occasional white dots. Dark green, twisted foliage. 8 to 12 in . to 18 to 24 in .
Jarvis Red. Deep blood-red, semi-double flowers with golden stamens. Dark green foliage; strong grower.
Kellingtonia. Flower somewhat on order of Chandleri Elegans, but smaller and red and white variegated. Large foliage. 12 to 18 in .
Latifolia. A variegated form of Gloire de Nantes. 12 to 18 in ., 18 to 24 in .
Lilyi. Medium-size, rose-double, white flowers in great profusion. Fastgrowing, symmetrical bush. 12 to 18 in .
Maurice Hurst. Local name of a fine Camellia at Pelham, Ga., imported from France many years ago and original name lost. Very Iarge, loose, semi-double, salmon-rose flowers. Glossy foliage. Fast-growing bush, and very satisfactory variety. All sizes.
Meig's Variegated. Medium size; light rose-pink, often spotted white; full, rose-double. Distinct, glossy, somewhat pointed foliage. Fast grower; early and profuse bloomer. All sizes.
Mrs. Abby Wilder. Medium to large; peony-form, somewhat on Prof. Sargent order; white, often with faint pink flecks. Compact and excellent grower. 12 to 18 in., 18 to 24 in.
Prince Eugene Napoleon (Pope Pius IX). Medium, rose-double flowers of bright red color. Heavy bloomer and fast grower. 12 to 18 in . to 3 to 4 ft . Sarah Frost. FulI, rose-double; rose-pink to light red. Profuse bloomer. A highly satisfactory old variety, making the most perfectly shaped and large bushes. All sizes.
T. K. Variegated. Semi-double; light pink, with darker pink margin; elegant form and coloring, with large cluster of yellow stamens. Small leaves. Compact, but fast grower. 12 to 18 in., 18 to 24 in .

## QUALITY IN CAMELLIAS

Nearly all of our Camellias were grown in beds in lath-houses and woodland, some larger sizes in open fields. All are well-branched, thrifty plants.

The growing of top-quality Camellias has become our principal interest. We are sure we can please you.

## Camellia Sasanqua

One of the newer and finest of all the broad-leaved evergreens. Similar to Camellia japonica, but looser and faster growing. Very profuse bloomers, the flowers commencing to open the latter part of September and continuing on through November-a time when very few flowers can be had.
They are extremely satisfactory in landscape work, as individual specimens, in foundation plantings, and for hedges, and their popularity is only just beginning.
Cleopatra. Large, beautiful cherry-red flowers, semi-double, and having crinkled petals. Foliage thick, dark and glossy. A vigorous and compact grower. 2 to $21 / 2 \mathrm{ft}$., $21 / 2$ to 3 ft .
Dawn. Easily the finest of the light pink Sasanquas. Large, semi-double flower. 12 to 18 in . to $21 / 2$ to 3 ft .
Rosea. Medium, single, deep pink flowers in great profusion.' Fast grower, free bloomer. This variety at Thomasville blooms September to January. All sizes.
Snow-on-the-Mountain. Large flowers for a Sasanqua, but very free bloomer. Semi-double, ivory-white flowers. All sizes.

## VARIETIES OF INDICA AZALEAS

Alba. Large; single; white. Tall; midseason.
Brilliant. Brilliant deep pink. Small, bushy grower; Iate.
Croemina. Very large flower; light pink. Compact and tall; early. A very fine Azalea and a favorite at Hjort's Azalea Woodland.
Dixie. This salmon-red is one of the finest of the Indica Azaleas. Midseason. This lovely Azalea is one of the hardiest and most satisfactory of all.
Duc de Rohan. Medium-sized; salmon-pink. Early.
Elegans. One of the best early-flowering Azaleas. Light rose-pink. Tall. We usually sell more Elegans than any other Azalea.
Fielder's White. Large; pure white. Early
Formosa. Large-flowered, purplish pink, dark-foliaged variety. Generally considered the greatest of all Indica Azaleas, this is always in great demand and always satisfactory in this section
George Frank. Large; rose-pink with deeper center, one of the loveliest of all Azaleas. Compact; early
Iveryana. Variegated Azalea. Large, white flowers, striped pink and orange. Of spreading habit; late.

Lawsal. Bright salmon-pink. Tall, bushy grower; late. We highly recommend Lawsal as one of the hardiest and most beautiful of Azaleas.

Omurasaki variegata. Our finest variegated Azalea. Blush-pink with markings of deeper pink and red. Late.
Phoenicia. Large rosy lilac to lavender flower; dark green foliage; spreading grower. One of the best Indica Azaleas.
President Clayes (Flame). One of the best of all Azaleas. Flame-red, a delightful color through pine woodland or fronting a dark background. Rather early bloomer for darker-colored Azalea.
Pride of Dorking. Rose-red; large flower. Late.
Pride of Mobile. Deep watermelon-pink; large flower. Late. Very satisfactory.
Pride of Thomasville. A light lavender-pink sport of Concinna, originating with us. Has longest season of bloom of any Indica, beginning early and continuing throughout the main season. Very hardy and very satisfactory.
Prince of Orange. Scarlet. Low, spreading, compact; late
Vittata Fortunei. Flowers white with pink or lavender stripes, borne at intervals from October to March. Strong, open grower.
William Bull. The only double-flowering Indica Azalea we list. Many pomegranate-red flowers produced rather late in the Azalea season. An open, branched, picturesque grower.
We have many large and very large specimen Azaleas. We would be pleased to quote prices for those who are interested.

## HJORT'S INDICA AZALEAS

Azaleas are the most showy of flowering shrubs. In the Lower South, through the use of early, midseason, and Iate varieties, producing a mass of bloom in a wide range of delightful colors, a long season of flowering is enjoyed.

Plant Azaleas in partially shaded, well-drained locations. To create a more acid condition, favorable to Azaleas, it is well to use Peat Humus at the time of setting, and when plants are established fertilize them with Azalea and Camellia Fertilizer. Animal manures are not recommended for Azaleas.

The growing of finest quality Azaleas has long been a specialty with us, and the plants this season are some of the best we ever raised. Here you will find a wide assortment of varieties to choose from, including some that are generally scarce.

## Visit Hjort's Azalea Woodland

Visitors are always welcome, whether to purchase plants or not. Each succeeding season sees the grounds become more interesting, as new and improved varieties are added.

While this invitation is extended to all, it is especially intended for those friends and customers who used to enjoy frequent visits here. Some people, especially those from a distance, have not been able to visit our grounds the past several years. For others the visits have been greatly reduced. It is possible that by the time Camellias and Azaleas are in bloom again a portion of the war may be over, and traveling easier.

When you can travel, do come!

## Miscellaneous Azaleas

AZALEA Kaempferi. A very hardy, late-flowering, large Azalea of upright growth and dark green foliage. Same sizes and prices as A. indica. An excellent April-flowering evergreen Azalea. Pink and red.
A. macrantha. Late spring and summer-flowering Azalea, fine for greaty extending the flowering season. Single and double pink kinds. Evergreen foliage.

## PRICES OF INDICA AND KAEMPFERI AZALEAS:

Shapely, well-grown plants from lath-houses and woodland beds

Azaleas are effectively used in foundation plantings

## AZALEA HINODEGIRI

## HJORT'S KURUME AZALEAS

The Kurumes, native of Japan, fully one thousand miles farther north than the native habitat of the Indica varieties, are by far the hardiest Azaleas, and in the Lower South have stood perfectly the freezes which damaged more tender kinds. The Kurume Azaleas, contrary to popular belief, are not all dwarf growers. There are medium and tall kinds, and the widest assortment of color. We have developed a large stock of these dependable Azaleas, and the quality is the best. Our plants, from smallest to largest, are shapely and well set with buds. All varieties have evergreen foliage.

Double varieties are marked *; all others are single
Apple Blossom. Single flowers; apple blossom color. Midseason.
*Amona. Flowers rosy purple, in dense masses. Hardy; tall, early.
Bridesmaid. Glowing salmon-pink; smaII glossy foliage. Midseason.
*Cherry Blossom. A favorite of the tall growers; very light pink. Somewhat late in flowering.
*Christmas Cheer. Brilliant bright red; the small foliage is very dark green and compact. The earliest of the red Kurumes. Medium.

* Coral Bells. Beautiful shell-pink, shading somewhat deeper at center; free flowering and dainty. The dwarfest of the dwarfs; ultimate height 4 feet. Early.
Daybreak. Large clusters of shell-pink flowers. Midseason.
E. K. James. Large flower for a Kurume; deep flame-red. Tall grower.

Late. Seedling originating with us, and named in honor of the late vicepresident of our corporation.
Flame. This Flame Azalea is one of the best of the Kurumes and one of the tallest growers. Midseason.

* Hexe. Large, deep red flowers. Late bloomer.

Hinomayo. Beautiful rose-pink; foliage smaII; profuse bloomer. Often used as a background planting for Coral Bells. Tall; early.
Hinodegiri. Brilliant scarlet; foliage rounded and deep green. A midseason bloomer, coming into flower just before Christmas Cheer has finished. Medium.
Hoo. Single white flowers with pink edges. One of the fastest-growing Kurumes.
*Hortensia. One of the taller growers of the pink Kurumes. Midseason.
Irene. A lovely new Azalea originating with us. Blush-white with deeper center. TaII; midseason.
Peach Blow. A fine Kurume with flowers of light peach-blossom-pink. One of the fastest of the Kurumes. Tall; midseason.
*Pink Pearl. Light pink, produced in dense clusters. Tall; midseason.
*Salmon Beauty. Large; salmon-pink. Free flowering. Midseason.
Salmon Queen. This salmon-colored Kurume Azalea is one of the best of the single-flowering kinds. Medium; midseason.
*Snow. The best of the white Kurumes. Medium; midseason.
Vesuvius. Deep flame-red flowers freely produced. One of the best of the tall, single-flowered Kurumes. Late.

* Yayegiri. Deep flame-red flowers in great profusion. Late.

## PRICES OF KURUME AZALEAS:

Shapely, well-grown plants from lath-houses and woodland beds

Larger specimen plants $\$ 5.00$ to $\$ 50.00$ each

## NATIVEAZALEAS

In limited supply, we have very choice Native Azaleas, same varieties, same prices as last season.

## HJORT'S

## THOMASVILLE ROSES

## 47 Years with Roses

Since 1898 the growing of quality Rose plants has been a specialty with us. The 1944 growing season was very fine, and our 2-yr. No. 1 plants are top quality - we cater to those who want the best. You will like these Roses, budded on stocks suited to the Southeast, and guaranteed true to name.

## HYBRID TEA ROSES

Prices of Hybrid Tea Roses, except Patented and other Roses as noted 2-yr. No. 1 plants, 75 cts. each, $\$ 7.50$ for $12, \$ 60.00$ per 100 transportation prepaid. 6 at 12 rate, 50 at 100 rate.
Betty Uprichard. Carmine-salmon. Long-pointed buds. Free bloomer.
Caledonia. White. Large; double; high-centered. Stiff stems.
Condesa de Sastago. A Spanish novelty of high coloring-coppery red and yellow.
Countess Vandal. Patent 38. Salmon-pink. Perhaps the finest of the pink Roses that are patented. \$1.00 each.
Dainty Bess. Charming, large, single, wild-rose-pink flowers in clusters. For exhibition, disbud, leaving one flower to grow large. This delightful Rose is a strong grower and free bloomer.
Edith Nellie Perkins. Deep pink, shaded salmon.
Editor McFarland. Pink. Comparable to Radiance in growth and blooming. During the hottest summer weather it was our best pink variety. Fine for cutting.
Elizabeth of York. Cerise-pink, shaded yellow.
Etoile de Hollande. The most generally successful of deep red Roses. Brilliant crimson; fairly double. Vigorous.
Golden Dawn. Possibly the best of all yellow Hybrid Tea Roses for the South. Light yellow, large, double flowers on strong stems with good foliage.

## HYBRID TEA ROSES

Kaiserin Auguste Viktoria. The most generally satisfactory of white Hybrid Teas.
Killarney. Deep pink. Long a Southern favorite.
Killarney Queen. Sport of Killarney with larger flower of deeper pink.
Luxembourg. Yellow, beautiful bud; fuII flower,
Mrs. A. R. Waddell. Deep apricot. An old favorite.
Mrs. Charles Bell. The shell-pink Radiance. Large, well-shaped blooms on stiff stems. Free bloomer; even more vigorous than its parent.
President Herbert Hoover. Flame-pink, scarlet and yellow.
Radiance. By long odds the most popular of all Roses. Carmine-pink, on strong stems. Vigorous; free bloomer.
Red Radiance. Easily the leading Red Rose.
Roslyn. One of the best of the newer deep yellows.
Rouge Mallerin. Brilliant scarlet; large.
Sœur (Sister) Therese. Long-pointed, chrome-yellow buds, opening to daffodillike flowers.
Talisman. Brilliant red and gold buds opening orange-yellow.
White Killarney. Sport of Killarney. A good white.

Roses are scarce this season. If possible, please allow us to substitute if sold out of first-choice varieties.

## HYBRID PERPETUAL ROSES

Duchess of Sutherland. Peach-pink; Iarge.
Frau Karl Druschki. The one pure white Rose, better known as White American Beauty.
Georg Arends. A lovely soft rose-pink.
J. B. Clark. Intense crimson. In this section the favorite red Hybrid Perpetual.
Magna Charta. Bright pink suffused carmine.
Paul Neyron. Deep pink; immense. A favorite in its class.
Ulrich Brunner. Deep red; shaped like Paul Neyron.

## CLIMBING ROSES

## Prices of Climbing Roses

2 -yr. No. 1 plants, 75 cts. each, $\$ 7.50$ for 12, $\$ 60.00$ per 100 , except as noted. Transportation prepaid. 6 at 12 rate, 50 at 100 rate.
American Pillar. Beautiful single Roses borne in clusters; deep pink with white eye. Profuse spring bloomer.
Beauty of Glazenwood. Orange-yellow, with reddish tints. A good climbing Rose. Black Boy. Excellent deep red Australian climber.
Climbing Columbia. A climbing offspring of bush Columbia.
Cl. Dainty Bess. A fine sport of the popular single-flowering pink bush Rose.
Cl. Etoile de Hollande. Fine climbing sport.
Cl. Luxembourg. A very vigorous sport of the deep yellow Luxembourg.
Cl. Maman Cochet. A vigorous sport of the bush variety. Good bloomer.
Cl. Mlle. Cecile Brunner. A strong climbing form of the favorite Sweetheart Rose.
Cl. Mme. Caroline Testout. Large; satiny pink.
Cl. Perle des Jardins. Yellow climbing Noisette Rose, similar to Marechal Niel but more vigorous.
Cl. President Hoover. Strong climbing form of a favorite Rose.
Cl. Radiance. A fine climbing Rose, developed from the bush Radiance, universally the most popular Rose. Constant bloomer.

Climbing Red Radiance. Very satisfactory climbing Rose. Sport from the bush Red Radiance. Constant bloomer.
Cl. Talisman. A vigorous sport of the bush Talisman and identical in color.
Dr. W. Van Fleet. One of the most beautiful of flesh-pink Roses. Profuse spring bloomer.
Golden Glow. Perfect in color and form; beautiful cadmium-yellow buds and flowers on strong lateral stems. A fine Brownell climbing Rose. $\$ 1.25$ each.
Jacotte. Rich orange-apricot, with coppery red tints. Very good.
Marechal Niel. A great Southern favorite. Deep yellow.
Mary Wallace. Large; deep pink. Profuse spring bloomer. A delightful variety.
Mme. Gregoire Staechelin (Spanish Beauty). A delightful pearl-pink climbing Rose; fragrant. Free bloomer.
Paul's Scarlet Climber. The most popular climbing Rose in the Southeast. Brilliant scarlet flowers, borne in great profusion in early spring.
Reve d'Or. At Thomasville this is the most popular of yellow climbing Roses.
Silver Moon. Large, pure white, single flowers in great profusion in spring.
White Cherokee. The well-known, single, white-flowering Rose used so much in the Southeast. Very early bloomer.
Yellow Banksia. A unique and truly great Southern Rose, bearing great clusters of small, double, yellow flowers in spring.

FLORIBUNDA, ELSE POULSEN

## FLORIBUNDA or POLYANTHA ROSES

## Prices of Floribunda Roses

2-yr. No. 1 plants, 75 cts. each, $\$ 7.50$ for 12, $\$ 60.00$ per 100, except as noted. Transportation prepaid. 6 at 12 rate, 50 at 100 rate.

For freedom of bloom over a Iong season, no other group of Roses compares with Floribundas. They are easy to grow in all kinds of situations, and with reasonable care they give colorful flowers eight months of the year.
Cecile Brunner. Well-known "Sweetheart Rose." A Tea-Polyantha bearing many clusters of small, double, light pink flowers. Else Poulsen. Large; semi-double; bright rose-pink. Vigorous, upright grower. Easily the best pink Floribunda in our gardens, and a great favorite in the Southeast.

Fairy Cluster. A beautifuI, miniature Dainty Bess.
Gruss an Aachen. Large, double, salmonpink flowers on small, compact bush. A truly fine and dependable Rose.
Kirsten Poulsen. Medium-sized, single light red flowers. Strong, upright bush.
Lafayette. Semi-double; cherry-red. Vigor-
Peach Blossom. One of the best Floribundas. Peach-pink color. Those who have it greatly prize it.
Perle d'Or. The salmon "Sweetheart Rose." Deeper than Cecile Brunner.
Springtime. Patent 268. A delightfuI rosepink; semi-double. $\$ 1.00$ each.

C., Mystery. Very fast grower with larger blooms than the preceding. 18 to 24 in ., $\$ 2.50$.

## Broad-Leaued EVERGREENS

The Lower South is indeed fortunate in its wealth of broad-leaved evergreens. Many of them have beautiful blooms and berries-a distinct advantage over conifers. With the use of broad-leaved material one is able to get definite contrasts in color and size of foliage, blossoms over a long period, low-growing and tall-growing, columnar or spreading plants, as the location demands.

It is in flowering shrub borders and foundation plantings that broadIeaved evergreens are most effective, but many are used to screen outbuildings, as individual specimens and in hedges. Apart from their wide adaptability and ease of growth, they stand pruning exceptionally well.

Far above the average are the thrifty, compact, well-growing broadleaved evergreens we have grown in our nursery fields. Those who wish top quality are invited to see them.

Extra-Select Quality. AII of our broad-leaved evergreens are fieldgrown plants of finest quality. These plants have had all the pruning, fertilizing, and cultivating it takes to make the best. You will be pleased with them.

ILEX (HOLLY). Our Hollies are grown from cuttings or grafted from heavy bearing specimens, insuring handsome plants. Dug with good ball of earth.
I. cornuta Burfordi (Burford's Holly). This variety has few or no spines and is of more rapid growth than $I$. cornuta. Very dark, shiny green foliage, which holds its lustrous shiny green folage, which hoids its ustrous
color throughout coldest weather. Large, red berries all winter.
I. crenata (Japanese Holly). 4 ft . An evergreen shrub, 4 feet high, with oval, crenate leaves. Black berries.

In limited supply we have other conifers, and invite correspondence.

## IMPORTANT SHIPPING NOTICE

We regret that owing to lumber restrictions we cannot this season ship in boxes large evergreens from our fields. We believe we have enough boxes and used lumber to ship smaller sizes. We will continue to make limited truck deliveries of all sizes of plants in the territory we usually serve.

GARDENIA

## VISITORS INVITED

Not many of you who receive this booklet will be able to visit Hjort's Azalea Woodland this season. But when victory has come, the war ended, and normal traffic resumed, we want you to come back to see us. You will find that we have added a great variety of lovely and thrilling new Camellias and Azaleas along our drives and in the woodland.

Many of you have enjoyed this great display of winter and early spring color in the past. You have a great treat coming when you return!

Absolutely no admission charge or collections taken and nobody is asked to buy anything. This is the greatest display of Azalea color and varieties in this section. Come and enjoy it with us.

## MISCELLANEOUS PLANTS

 for Your GardenAmaryllis vittata Hybrids (Giant Lily). Flowers very large, in a wonderful range of color-red, maroon, rose, splashed pink, striped and variegated. We cannot guarantee colors, but ours is a good strain and all flowers will be large. Flowering size, 75 cts . to $\$ 1.50$ each.
Bambusa argenta. Vigorous growers, good for hedges and screens. Handsome foliage and canes which will grow 20 feet. Clumps, 75 cts. to $\$ 3.50$.
B. falcata. A very handsome clump Bamboo, with fern-like leaves. Rarely grows taller than 12 feet. May be kept pruned low as a hedge. Will grow in very shaded places and next to trees, as well as in full sun. Clumps, 75 cts. to $\$ 3.50$.
Bignonia speciosa (Gloria Vine). A fastgrowing, almost evergreen vine with lavenderblue flowers in clusters. Medium plants, 50 cts .
Hedera algeriensis (Algerian Ivy). Largest leaves. Fine for a ground-cover or to cover trunks of large trees, in dry, shaded places where grass or shrubs will not grow. Rooted runners, 15 cts. each, $\$ 1.50$ for $12, \$ 10.00$ per 100.
H. baltica (Baltic Ivy). Very small-leaved Ivy. Dark green. Excellent for hanging baskets. Also can be used as ground-cover. Rooted runners, 15 cts. each, $\$ 1.50$ for $12, \$ 10.00$ per 100.
H. Helix (English Ivy). Makes an excellent evergreen covering for walls and trunks of trees. Medium-sized dark green leaves. Rooted runners, 15 cts. each, $\$ 1.50$ for 12 , $\$ 10.00$ per 100 .
H. maderensis (Maderian Ivy). Almost as large leaves as Algerian Ivy. Dark bronzy green. Rooted runners, 15 cts. each, $\$ 1.50$ for $12, \$ 10.00$ per 100
Trachelospermum jasminoides. (Star Jasmine; Confederate Jasmine). Finest of all evergreen vines for the Lower South. Fragrant, creamy white flowers in great profusion in late spring and summer. Medium-sized, dark evergreen foliage. Small plants, 35 cts . each, $\$ 3.00$ for 12 ; medium plants, 50 cts. each, $\$ 5.00$ for 12 ; strong plants, $\$ 1.00$ each.
Violet, Governor Herrick. Very large; deep purple; highly fragrant. The finest of Violets for the Lower South. 15 cts . each, $\$ 1.50$ for $12, \$ 10.00$ per 100
Wisteria chinensis. Two varieties, Purple and White. Our Wisterias are grown from freeflowering plants and are not to be compared with seedlings. 75 cts. to $\$ 1.50$ each.
in growing Ornamental Trees and Shrubs, conducting extensive experiments and rendering planting service, has qualified the Hjorts to serve well those who patronize
Thomasville Nurseries.

# LIRIOPE MUSCARI <br> The Big Blue Liriope 

No one who has seen colorful Liriope Muscari in bloom at Thomasville throughout the summer will ever forget the colorful sight. This is truly the most useful of all border plants. It grows well in dense shade or in the full sun. It is used to border walks and beds, on slopes to prevent washing, as a ground-cover, in porch-boxes and as potted plants. Averages 8 to 12 inches in height and spread.

Liriope Muscari is so easy to grow it is foolproof. While it thrives best in light but enriched soils, it will persist in well-nigh impossible hard and heavy soils. And though it will bloom in any location, the foliage is of better dark green color when planted in shade or partial shade. Liriope plants may be set any time of the year, and several years later may be dug, divided into at least four times the quantity, and the planting extended.

Our L. Muscari, sometimes listed as L. raminifolia densiftora, is genuine, grown from divisions only. We grow no seedlings, since they usually revert to the small-leaf type with light, stringy flowers of short duration. Our division-grown $L$. Muscari has wide leaves and produces uniform, heavy spikes of deep lavender-blue flowers over a long season. Plant 6 inches apart for continuous line.

Liriope is so hardy it may be planted in the entire South. If you are not ready to plant a border, try a dozen or more plants. You will be pleased.
